"Toleration."

The very choice and elegant which graces the columns of the Daily Telegraph in its late issues, must be highly edifying to many pure hearts and refined manners of respectability are usually appointed elders and bishops of this people! We have listened in wrapt attention to the lofty sentiments of Heber, in the Tabernacle, and been edified by the chaste language of Wooley in the 13th Ward; we have read numerous "sermons" as published in the *Deseret News*, and listened admiringly as "the boys in the streets and Bishops in the canons" have illustrated the beauties of Mormon literature, but all our experience among the "Saints," we have never heard anything so, that line that quite comes up to the standard of the *Telegraph*. Brother Wooley might as well resign; for his laurels are fading, and the sceptre of his peculiar power is departing from him. The 13th Ward Church is no longer the best Theatre in Iowa. Apparently the mantles of both Heber and Wooley have fallen upon the *Telegraph* man, and he begins to prophesy and to speak with unknown tongues; he indulges in exalted figures of speech, and calls his Gentile brethren by many pet names! In his moments of inspiration, he illustrates the beauties of Mormon literature in a manner approaching the sublime. Thus, in a late issue, in paying a high tribute of respect to the Gentile element of this city, he says, they are "as mean as a dirty, lying crowd of w—m—s as ever disgraced the earth!" they are "lying scribblers and plunderers of the public crib;" they are "drunken, rotten, stinking, miserable wretches who ought to be swept from the face of the earth!" Now, seriously, we protest that this kind of talk has been tolerated about long enough. Is it not high time that this wholesale slander of the Gentile element in this city should be stopped? Some one, in a fit of passion, said in the Tabernacle on Sunday last, that it was time a stop was put to that "rile sheet, the *Vedette*!"

We wonder if he and all of his polygamous crew do not know by this time that the question of toleration is on the other side of the house, and that it is he and they that are tolerated in this community? Do they not know that they are criminals before the law, and liable any day to be called upon to pay the penalty of its transgression? Of course they know it and they understand it, too; and all their "brave" and defiant talk is but a boy's expedient, *who pretends to be brave to keep up his courage*. Draw it mild, brother Stenhouse; those "horrid Gentiles" are very easily frightened, you know. They probably will be gentle as lambs under all your pleasing compliments, but don't lay it on too thick; too many compliments from the same source become nauseating;—and if they should happen to turn against you, why, not even Saxe, nor Doby Yard, nor brass knuckles, nor deringers, nor polyanthus itself could save you. "That's us."

Colorado Gold.

The following is the third response to our inquiry for specific and trustworthy information as to what has actually been done (not what it is calculated, may or will be done) in reducing the intractable Sulphurets of Colorado and extracting Gold therefrom by any of the new methods or processes whereof we have all heard glowing but vague accounts. In each case, a distinct process is reported, which is so much the better. We regret that in neither have we been told what is the cost of reducing ores and extracting the gold per ton or per cord of rock, though this is a material item. However, we give all that is sent us, and hope for more in due season.

To the Editor of the N. Y. Tribune.

Sir: In reply to your inquiry in the Tribune of the 13th, I wish to say that I have a recent letter from Prof. Hill, formerly of Brown University, in which he says that he has trustworthy information that Keith is running from 212 to 3 cords per day, and that his yields vary from \$600 to \$800 per cord in coin. Beside this, I know the following facts: The Black Hawk Company took out, some two years ago, some 40 or 50 cords of remarkably handsome and rich-appearing ore from their mine on the Bob-tail lode. It was said, however, that it would hardly pay expenses by the "stamp" process. Whether this was true or not, it was permitted to lay in their yard for more than two years. While I was there last Summer, they bargained with Keith to run this ore for one-half of the product. The runs were from \$1,150 to \$1,250 per cord for five weeks in succession, for I saw the bullion weighed; hence I do not doubt the correctness of Prof. Hill's information.

Yours, in haste,
WILLIAM W. WRIGHT,
Geneca, N. Y., Feb. 15, 66.—*New York Tribune*.

OWYNE VOLUNTEERS RETURNED.—A party of the expedition that went from Owyhee after the Indians, returned last Sunday, and they were all expected in soon. They have learned, after trying it, what everybody knew before, that nothing can be accomplished in fighting Indians unless the men are well mounted.

FRIGHTENED.—The frontiers are all making preparations for the coming season. E. R. Blair sent out a large mail train loaded with merchandise for Denver City, on the 1st inst. T. J. Coppeland and others will load several trains for the West.

A Letter-writer describing the fresh and able costumes as he saw them on Chestnut street, Philadelphia, says: "I observed that the prevailing style of dress was blue." The style of the dress adorned him to make the observation.

Before the vote was announced Garfield changed from the affirmative to the negative, in order to move re-narration which having been carried yesterday. The bill is now re-committed to the Ways and Means Committee, which will report a new bill at the earliest practicable moment, the main objection to the bill being the power to fund greenbacks. The Committee will probably omit that clause.

Bartwell in a speech yesterday said, the Secretary without any further legislation had power to relieve one hundred and eighty millions of currency before the 1st of December, which he claimed would release the premium on gold to 5 per cent.

Washington, March 20.

The bill for an annual inspection of Indian affairs, which passed the Senate yesterday, gives Indians legal protection by conferring upon Indian Agents the powers of magistrates, and making Indians competent witnesses before him and the United States courts, heretofore an agent has had power to appoint traders, and could thus force Indians to trade with whom he pleased. By the bill any one of good character can trade, by giving bonds.

New York, March 20.

Vera Cruz dates of the 9th, show that the promised Imperial pacification far as never from realization, that republicans still maintain the contest with energy. Not the slightest indication of the intention of the French to withdraw is yet apparent. The critical position of the Imperialists at Tampico, is confirmed, and in the Pacific States the Imperialists are still confined to few points, the republicans are holding all the country, the latter had boldly attacked the garrison at Mazatlan three times within five weeks. M. Sullard, special envoy from Napoleon, had left on his return to France. One of the Belgian envoys was shot by guerrillas, while enroute to Vera Cruz. A concentrated effort will be made by the Imperial troops to clear the Rio Grande border of guerrillas, and re-establish communication with the interior.

Chicago, March 21.

The St. Louis Republican has the particulars of a terrible tragedy in the Overland Coach bound East, between Kansas and Colorado Stations. During the night of Tuesday, 13th inst. appeared a ruffian named Henschel, a fugitive desperado from Montana, who alarmed first one of his fellow passengers, W. W. Barlow, of Denver, Deputy United States Marshal, was preparing to arrest him, and attempted to murder the whole party while sleeping. One passenger was killed and two wounded before the situation was fully understood, when Barlow shot Henschel, and ended the tragedy.

Portland, March 19.

The steamer *Peruvian* from Liverpool via Londonderry the 9th, arrived this evening.

The House of Commons passed a bill for the abolition of church rates, held to a second reading, by 235 against 252. The announcement of the vote was received with loud cheering, it is thought that the vote indicates an early solution of the question, although, at present the bill will doubtless be rejected by the House of Lords as usual. The London Post asserts that the public feeling is dead about reform times, and continues to protest against dealing with Parliamentary reform. Sir John Gray's motion for an Irish Church has been fixed for Tuesday. The resolution he proposes is that the church in Ireland is a grievous wrong to the people of that country, and its continued maintenance prevents them from having any confidence in justice or wisdom of Imperial Parliament.

The total number of persons arrested under the suspension of the habeas corpus act is 176, of whom 64 are Irish Americans, four have been discharged.

The London Owl says a German crisis is imminent. The Prussian Government despatched to Vienna summons in respect to Holstein, which was preemptory. Bismarck is ready to face war and abide the consequences. Austria will at once take up the gauntlet or yield to the pretensions of Prussia in somewhat of an ignominious manner.

FROM MONTANA.

Fight with the Indians.

Gov. Meagher received, yesterday by the Helena Express, from R. Herford Esq., a very nice Indian Medicine Arrow case, which was captured in a late fight between some miners, near Sun River, and some Indians.

We give below the resolutions adopted by the miners, which is very numerously signed:

Sun River Bridge, March 1, '66.

We the undersigned, having this day had an encounter with a lawless stealing party of Blood Indians, resulting in the wounding of one white man and the killing of one Indian, and the capturing of three more which we hung forthwith; and the country being alive with hostile Indians, and

WHEREAS, The Blackfeet, Bloods and Piepans are now, and have been, committing various depredations by stealing stock, robbing and murdering white men traveling on the public highway, and are now at open hostilities, we, the undersigned, having met at the above place for mutual protection, passed the following resolution:

Resolved, That we do solemnly bind ourselves to aid and assist each other in protecting ourselves and property, and chastising all offending Indians or stealing parties that are now out, or may be hereafter out, if in our power to do so; that we fortify the above place and remain till reinforcements arrive, and we pray that this appeal may meet with the approval of the Governor.—*Montana Democrat*, etc.

New Mexico District.—The Virginia Union of February 24th says:

A few miles east of Excelsior, a new district has been discovered and named St. Mary's. It is only a few miles off the Heuness Pass route. Three persons arrived in town yesterday with a quantity of the rock, which we examined, and in appearance resembles the best of Enterprise ore, being rich in silver and gold. The silver ore was from a lead called the General Grant, and it is thought from assays that have been made that it will work by mill process \$20 to \$30 per ton. Rock taken from the Leconey lead shows a considerable amount of fine gold. There are about 75 miners in the district, and during the winter, work has been done on some half dozen leads. On the General Grant a shaft has been sunk to the depth of 30 feet, on the Walker a shaft has been sunk about 30 feet; and the York America a shaft 20 feet, and by the Ab Lincoln and Little Savage companies, working on the Rochester lead, each a shaft 20 feet deep. A town called Graniteville has been laid out about a mile from the junction of the Sierra Valley and Heuness Pass road.
